TIROLER GOLDSCHMIED

The Art of Refinement

The prize-winning Tiroler Goldschmied studio designs exquisite jewellery that attracts jewellery lovers from far beyond the national borders.

Driven by its passion, the Gamper family also designs exclusive refined and bespoke falconry and hunting accessories. As a pioneer in its trade, Tiroler Goldschmied holds an important position in the world of jewellery and convinces by its extraordinary designs and precise workmanship. There are no limits to fantasy. The finest materials and unique gemstones underline the grace and magic of hunting and falconry.

Diamond-studded hawk's hoods, hawk bags bearing the family coat of arms, or hawk gloves with the personal initials of their owner.

We will gladly engrave your handwritten signature, fingerprint, or coat of arms.

The falconry hoods are made by the famous artisan Giancarlo Pirrotta.

Each accessory can be transformed into a precious one-of-a-kind piece, as unique, mysterious, and graceful as the fascination of hunting and falconry itself.

Tiroler Goldschmied
A family with a passion for jewelry.

Work of art: falcon hood completely made of silver.
Not suited to use it as falcon hood.

Perfect craftsmanship.
